Subscriptions

EOS magazine is published quarterly and print subscriptions run for four issues. You can pay for your subscription on a recurring payment method of either credit card continuous authority (CCA) or Direct Debit (DD) for the best subscription rates. Contact us for more information.

Details of any change to the subscription fee for CCAs are published here in advance of any change.

Current CCA renewal fees are £17.95 (UK) and £25.95 (international). Please notify EOS magazine of any change to your address or credit card details. CCAs can only be cancelled by contacting EOS magazine.

Details of any change to the subscription fee for DD payments are sent to subscribers at least one month in advance of any change. DD payments are not notified or acknowledged except in the case of a change to the subscription fee or renewal date. DD mandates can be cancelled by contacting your bank, but please also notify EOS magazine so that we can update our records.

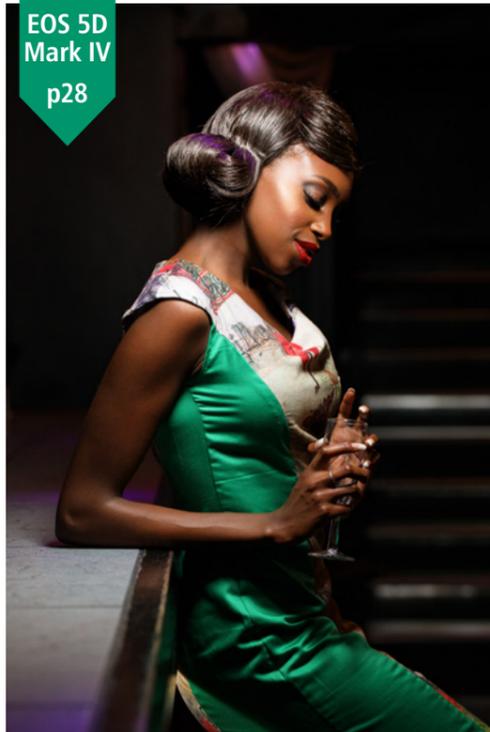

EOS Extra!

EOS magazine subscribers have their own special area on our website where there is a variety of offers and articles. Click the EOS Extra! link at: www.eos-magazine.com and enter the password: *extraeos*

Everything EOS

Every camera, lens and Speedlite is listed in our 'Everything EOS' supplement, along with many accessories from the EOS system. You can download it free from the EOS Extra! section (see above).

EOS 5D Mark IV
p28

EOS TECHNOLOGY

28 Four thoughts

We examine the latest technologies in the EOS 5D Mark IV and consider the development and improvements to this new camera.

CAMERA SETTINGS

50 Back to default

You can set your EOS camera to suit your shooting style, but there are times when you might want to undo your bespoke settings.

62 Wi-Fi answers

We investigate your Wi-Fi options – built-in, transmitters and Canon's new Wi-Fi Adapter W-E1.

72 Date and time

Do you remember to update the date and time of your camera? There are reasons why you should.

EOS SYSTEM

37 Lens variations

With several current lenses that cover a focal length range of 70mm or 75mm to 300mm, we look at what's under the hood and how you can choose the right one for you.

26 Weather report

We take a look at what Canon does to exclude the elements from your camera.

70 Battery safety

A review of the risk factors associated with the batteries used in EOS cameras.

FOCUS AREAS
p42

CAMERA FUNCTIONS

42 Focusing areas

Major advances in autofocus systems means it has never been more important to choose how you want your camera to operate.

REGULAR FEATURES

06 World of EOS

Canon news, developments and winning images.

74 Ask the EOS experts

Readers' questions answered.

78 EOS equipment data

An overview of current EOS camera models.

82 Forum feedback

The tripod – essential kit or too much hassle to carry? Forum members join the debate.

PHOTO SUBJECTS

14 Band of rebels

This issue's featured EOS project. We learn about Drew Doggett's take on the legendary white horses of the Camargue.

22 The low down

Lowering your viewpoint can have a dramatic effect on your images. We take a look at how you can use the Vari-angle screen or right-angle finder to avoid laying flat on the ground.

56 Moving image

Anatoleya has perfected the technique of combining movement with portraiture to stunning effect.

EOS PROJECT
p14

Moving image

see page 56

Anatoleya says, "The effect I'm going for is to juxtapose long exposures with portraiture photography. Long exposures impart a unique and distinctive feel to images. And to achieve it the model needs to remain absolutely still, so only they are sharp. For that extra 'pop' factor I combine High Dynamic Range (HDR) technique (using up to five bracketed exposures) together with long exposures."

ON THE COVER & P56

▲ EOS 5D Mark III and EF 24mm f1.4L II USM lens. Final image created by merging three photographs taken at different shutter speeds – 4 seconds, 10 seconds and 30 seconds. All at f5.6 and ISO 50.
