Subscription details

Each subscription is for four issues of EOS magazine. Subscriptions paid by credit card continuous authority (CCA) or Direct Debit (DD) receive a discount of £5. You can convert to CCA or DD payment at any time; a debit will not be made until your next renewal date. Details are available on request. Details of any change to the subscription fee for credit card continuous authorities (CCAs) are published in EOS magazine in advance of any change. CCA renewal fees are £16.95 (UK), £21.95 (Europe) and £26.95 (air mail outside Europe). Please notify EOS magazine of any change to your address or credit card details. CCAs can only be cancelled by contacting EOS magazine.

Details of any change to the subscription fee for Direct Debit payments are sent to subscribers at least one month in advance of any change. Direct Debit payments are not notified or acknowledged except in the case of a change to the subscription fee or renewal date. Direct Debit mandates can be cancelled by contacting your bank, but please also notify EOS magazine to avoid confusion.

EOS Training Academy

Now part of EOS magazine, the EOS Training Academy offers a range of courses at our Oxfordshire training centre, around the country and online. We only work with the EOS system, giving unrivalled tuition and advice on how to get the very best out of your cameras and lenses. Find out more at: www.eostrainingacademy.co.uk/

- 82 Viewpoint**
Are your photographs memorable? Here is a new way to find out. Plus, the impact of photography on your memory and films with photographers as a central character.

Cover story

Action stations

see page 42

"This encapsulates the excitement of the Wales Rally!" says Drew Buckley.

"I chose this corner as it was a tight but fast bend, which hopefully would provide an action-packed photo. Crouched down, using my EF 300mm f2.8L IS USM lens allowed me to be in a safe position, while stopping to f4 isolated the car making it pop out of the scene. A heavy sky added to the mood." *EOS-1D X, EF 300mm f2.8L IS USM lens at 300mm, 1/320 second at f4, ISO 200.*

Techniques

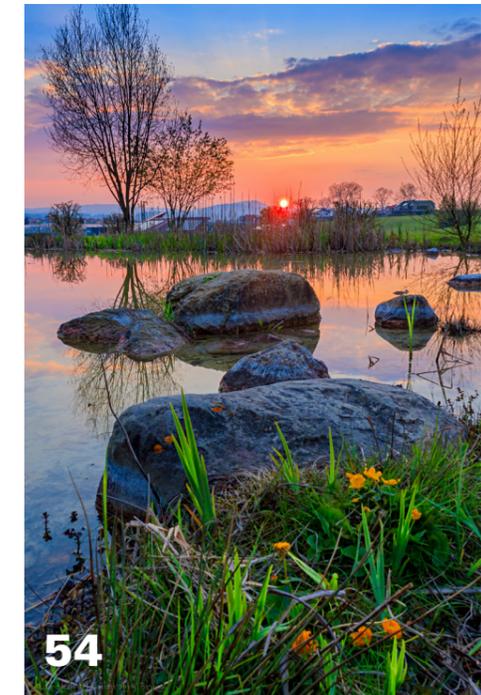

- 26 Wild & wide**
For a different perspective try photographing wildlife with a wide-angle lens.
- 32 Understanding histograms**
Learning about histograms can tell you a lot about exposure.
